Let our legal team stop the rot.

Fraud is a multi-billion pound crime in the UK, whether in commerce or industry, in VAT transactions, or through the increasing menace of computer and identity theft. Employee 'Insider' fraud, for example, costs companies over £250,000 a day, up almost 70% in 2009, year on year*.

The Fraud and Asset Recovery Department of Challinors solicitors is one of the most rapidly expanding of its kind. Our skilled and experienced lawyers deliver a sophisticated legal and commercial service, with a proven track record in complex commercial disputes. Our geographical location enables us to provide a highly cost-effective service across the UK.

All have selected our team for its bespoke expertise, experience and creativity. Our approach is always client-orientated, and has been reinforced by our appointment

to the Treasury Solicitor's Panel for litigation services, which provides legal services to more than 180 government departments and publicly-funded bodies throughout England and Wales.

Furthermore, our team, which includes members on Midlands Fraud Forum and Fraud Advisory Panel, has advised on aspects of claims and sanctions facing individuals being brought by financial institutions, public authorities or other businesses.

If you're interested in attending our next fraud and asset recovery seminar, or indeed, would like to discuss any problem or initial concerns you may have, contact Arun Chauhan or Mark Kenkre today.

Challinors. It's the best way to make a start on stopping the rot of fraud.

sherforce

high court enforcement

fast, effective recovery

Avoid the headache of recovering money owed to you and allow Sherforce and our nationwide team of professionally trained High Court enforcement officers to recover the debt for you.

Sherforce, part of Shergroup, the UK's leading High Court enforcement agency, acts for a wide range of individuals and organisations – including law firms, accountants, credit managers, banks, utilities and lending institutions – who have unpaid County Court and High Court judgments of over £600, needing to be enforced.

Sherforce Enforcement Officers provide the cure to inefficient and ineffective bailiffs. Operating across England and Wales, the Sherforce Team seeks payment from debtors based at either commercial or domestic addresses with visits followed up by telephone negotiation to underline the consequences of non co-operation.

So if bailiffs are giving you a headache try a new remedy – the Sherforce approach to successful professional enforcement. You'll never want to use a bailiff again!

REDALERT - Appointment of Administrative Receivers

27/09/2010

Company Name	Reg No	Date	Business Type
--------------	--------	------	---------------

There are no Receiverships this week

the way to improved collections

RK Business Training Limited provides professional training courses specialising in finance, credit control, management and many other areas. We have a very customer focused approach to training solutions and always discuss in detail with clients their full requirements to ensure that our courses and workshops more than meet their expectations.

We realise that in an increasingly competitive and financially tough market place your people are key in differentiating your business from your competitors. It is therefore crucial that the training they receive develops and enhances their skills so that both they and your company benefit from improved performance.

For further information visit us at www.rkbusinesstraining.co.uk or give us a call on 01858 880878
